Newly submitted claims 22-32 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: New claims 22-32 are drawn to a process of making 17b-hydroxy-17a-methyl-5-alphs androst-1-en-3-one which were not presented in original claims. Original claims were drawn to a process for making oxandrolone, which is completely different than the process of new claims.

Arguments were fully considered but are not found persuasive therefore, rejection is maintained for the same reasons as set forth in our previous office action.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 22-32 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
